SATURDAY, MAY 12. 1739

No. 1212.

Yesterday arrived a Mail from Holland.

Petersburg, April 14. O. S.

E have received fresh Letters from Constantinople, which confirm the Defeat of the Turks by the Rebel Sare B-y Oglia in Natolia; but they add, that the Advantage he gain'd is not so considerable as was at first reported; for the Caimacan who commanded the Turks, had but 3000 Men of Regular Forces, the rest, who were the greatest Number, being Men pick'd up in Hafie, who giving Ground immediately, the Caimacan was also obliged to fly. We hear by the same Letters, that the Porte has put a Price on the Head of the Rebel, and promised a Reward of 100 Purses to any that shall kill him.

There are no less than 100 Gallies fitting out here and in the other Ports of Russia, and 7 Men of War are equipping at Conisad, of which one carries 100 Guns, another 64, and the other five 54 each; and Measures are taken to assemble 40 or 50,000 Men together, in case of Need, in the Neighbourhood of this City in four or five Weeks Time.

Vienna, April 25. O. S. The Emperor has sent the Count de Paar, the Post-Master of his hereditary Dominions, to receive the Great Duke and Dutchess of Tuscany on the Frontiers of Tirol, and to conduct them to Stockasch, where they are to have an Interview with the Dutchess Dowager of Lorain. 'Tis computed that we shall have 80,000 effective Men this Campaign in the Field, besides the Militia.

Hamburg, May 4. O. S. The last Advices from Stockholm say, that before the States separated, they made a Present of 40,000 Crowns to the Count de Tessin, Marshal of the Dyst. They pretend, that when the new Levies which are making in Sweden and Swedish Pomerania are compleated, they will amount to 80,000 Men Foot and Horse; that Measures are taking to fit out 40 Men of War in case of Need, and that the Seamen which are already dispers'd in the several Harbours amount to near 25,000. But the State of Sweden is too well known for the Reader to give much Credit to such Rhodomontade.

Bordeaux, April 29. O. S. Two Days ago a great Fray happened here between the Officers that keep Watch at the Gates, and the Scholars of the several Colleges of this City. Three of the latter sailing along by one of the Gates in a Boat with a Ham which they were carrying into the Country, the Officers demanded to search the Boat, but the Scholars would not suffer it; and after a great deal of foul Language on both Sides, they fell to Blows. The Officers having seized the Ham, the Scholars told them that they should hear from them in the Afternoon. Upon this Menace, the Brigades which were at the other Gates were drawn off and sent to this Gate, with the Captain General. About two o'Clock in the Afternoon there appeared near the Watch-house a Company of Scholars, who had an empty Chest, which they brought with them on Purpose to excite the Curiosity of the Watchmen at the Gate, who casting their Eyes upon one of the Scholars that had been most free with his Menaces, the Receiver of the Gate caused him to be seiz'd and confined in his Watch-house; upon which the rest of those young Fellows took the Opportunity to go and spread the Alarm among the other Colleges. Their Comrades thought they were oblig'd in Honour to see the Prisoner set at Liberty, and for this End they repair'd to the Poor, being no less than 2000 of them, Masters and Scholars, especially those of the Marine College, and arm'd with every Weapon they thought proper either for attacking or defending. Upon the Watchmen's Refusal to release the Scholar, they went to work with an Ax to break the Door of the Watch-house open, and had actually made a great Hole in it, when the Watchmen, by the Advice of the Captain, or Surveyor General, discharg'd their Fire-Arms upon them, by which 4 Scholars were kill'd, and many others wounded. This made the Scholars so furious, that, without suffering the Dead to be

carried off, they continued to attack the Watchhouse till four o'Clock next Morning. The Governor of the City, the Parliament, the Police, and a great many Persons in Authority, did their utmost to pacify the Youths, who absolutely demanded that the Receiver of the Office, and the Captain, or Surveyor General, should be put to Death; the first for having caus'd the Scholar to be arrested, and the second for advising the Officers to fire their Pieces. Two of the latter are committed already to the Persons belonging to the Parliaments.

Paris, May 11. N. S. Several Expresses from Bourdeaux are arriv'd both here and at Versailles, with an Account of the Disturbance there on the 27th ult. and we don't find that it was intirely quieted when the last Messenger came off.

We have still melancholy News of the Scarcity of Provisions in several Provinces of the Kingdom, where the Misery is very great, and the Occasion of Sickneses among the Country People. A Letter from Tours affirms, that there are some Places in Touraine where the Peasants are obliged to live only upon Bran. Several Prelates have given great Alms in Compassion to the miserable State which their Diocessans are reduced to by the Scarcity and Dearness of Provisions. The Cardinal de Géfres, heretofore Archbishop of Bourges, has sent 20,000 Crowns thither to be distributed among the Poor. The Cardinal de Rohan has order'd the Revenues of his Abbey of Chaïe Dieu to be employ'd to the same Purpose.

A Letter is handed about here from a General Officer in the Service of the King of Spain, in which there is the following Bravado. ' Our Forces were never in a better Condition than they are now. We have on Foot 150,000 Men, and a Number of Men of War well arm'd and well rigg'd. His Majesty, by his Acceſſion to the Vienna Treaty, has now remov'd several essential Difficulties; so that we might promise ourselves Succes if we had any thing considerable to undertake, &c.'

Liege, May 2. O. S. Four Days ago one of the Ringleaders of the late Riot here was hang'd; and several others are fled from Justice. Mean time all the necessary Measures are still taken to hinder such Disorders for the future.

The so-much Fam'd HYPO-DROPS.

W HICH in a few Days infallibly cure HYPOCHONDRIACK MELANCHOLY in MEN, and the VAPOURS in WOMEN, so never to return again, be they ever so severe, or of many Years standing, and even after all other Remedies have prov'd ineffectual; and that by immediately striking at the very Root or true Cause, as well as remediying the Effects, of those perplexing Maladies and all their Variety of Symptoms, by which they mimick, by Turns, almost all the Diseases poor Mortals are afflic'ted with, and have their Rise from a depraved Appetite, vicious Ferment in the Stomach, and Indigestion of Food, whence proceed Crudities and flatulent or windy Disorders in the first Passages, four Belchings, Cholick, Uneasiness in the Bowels, and ill Fumes, which offend the Nerves, and, by Consett of Parts, affect the Head, and produce long-continued Giddiness, Dimness of Sight, confused Thoughts, pettaining Watchings, troublesome Sleep, Frights, groundless Fears, and the deepest Melancholy, with direful Views and terrible Apprehensions; at other times, Fits, Flushing Heats, Reachings, Faintness, Lowness and Sinking of Spirits, Palpitation of the Heart, Startings, Tremblings, and Twitchings in the Limbs and other Parts, with many convulsive Disorders, sharp Pains, fix'd or wandering Pain and Weakness in the Back, and other, almost innumerable and grievous Symptoms, which miserably affick vait Numbers of both Sexes.

All which Symptoms, in their sharpest Paroxysms, these so-much fam'd and most pleasant Drops, (which are Chymically prepar'd from the most valuable Specicks in the Mineral, Vegetable, and Animal Kingdoms, and exalted to the highest Degree of Perfection possible) instantly quell, and at the same time annihilate their real Cause, directly bringing the Stomach into right Order, creating a good Appetite, rectifying the Digestion, occasioning laudable Chyle, and, of course,

good Blood, Plenty of calm, free, and cheerful Spirits, a regular Circulation of all the Fluids, and Strength of Nerves;

so that both Cause and Effects of Melancholy and Vapours, are thoroughly removed by them, almost on the Spot, as the many Thousand of both Sexes they have perfectly cured,

evine.

Whoever takes them for 3 Days only, will be sensible they are absolutely to be depended upon for an effectual and lasting Cure, and certain it is, that no Medicine upon Earth can equal them; be careful therefore to have the right Drops,

which are to be had only at Mrs. Holt's, at the Cross-Keys,

Concerning Gleets and Seminal Weaknesses
of all Kinds.

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weaknesses, whether occasion'd by too severe purging for Venereal Injuries, violent Strains, Pollutio sui, or any other Cause whatever; and that they are dangerous in their Consequences, as well as difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, insinuate the whole Nervous System, often bring on Hectick Heats, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleets, Seminal Effusions, Involuntary Emisions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diabetes, or Incontinency of Urine, or Difficulty of holding their Water, would doubtless be glad to meet with a certain, safe, and easy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent BALSAMICK RESTRICTIVE ELECTUARY, now published for a general Use, after having for many Years been experience'd never once to fail perfectly curing the most Stubborn Gleets known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal and Urinary Vessels, and Urinary Passages, which almost instantly cures, bringing to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY, is neither disagreeable to take, nor occasions the least Discomfort, but is a wonderful Restorative in all Weaknesses and Decay of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels to an imminent Degree, insomuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out; and all Persons fatigued with Gleets or Seminal Weaknesses of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very effectual, that they will be most agreeably surprised at it.

When a Medicine will infallibly accomplish such a safe and perfect Cure of such difficult Maladies, as Gleets and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it, and this All who ever took it for any of the above-mention'd Pains, have readily declared.

The Price is but 6s. a Pot, altho' for its absolute Efficacy, one Pot alone being insufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. Radford's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whomsoever carefully reads will perfectly know, when the Gleet or Weakness he is afflict'd with, succeeds a Venereal Injury, whether all the Malignity of the Foul Disease is intirely eradicated or not.

Note. Ask only for a 6s. Pot of Balsamic Electuary.

These are to Certify whom it may concern,
T H A T the Two Medicines for ex-

ternal Use, which have been sold with so much Suc-

cess for the Good of Mankind above Thirty Years last past, in

the Cure of

All Sorts of RUPTURES, BURSTEN, or

BROKEN BELLIES.

are removed from the Minories where they have been sold for

the Author, so long, and are now sold only at Mr. Sandwell's

Toyshop, the Sign of the Griffin, the Corner of Buckler's

Bury in the Poultry, at 5s. the Parcel, with printed Direc-

tions given with them.

These two Remedies need no other Recommendation than themselves will manifest in two or three Days using, having by their admirable and even astonishing Success, gained the Reputation they so justly deserve, both in City and Country, after wearing Trusses for many Years to no Purpose.

For by the Blessing of God, they make a perfect Cure, either on Old or Young, in a very little Time, and for a small Charge, without any Pain to, or Confinement of the Patient; one Parcel is generally sufficient for a compleat Cure, especially on a young Person.
